Aqseptence Group

Johnson Screens' Outlet Baskets

Superior strength and performance resulting in increased value and reliability in downflow and upflow process applications

- Provides superior media containment, eliminating downstream media migration
- Ensures proper upflow distribution of the process gas or liquid
- Johnson Screens' Vee-Wire® construction maintains resistance to collapsing and buckling under the most extreme conditions
- Greater open area than mesh designs, Vee-Wire baskets deliver superior process efficiency in addition to negligible pressure drop increases
- Vee-Wire design requires little maintenance as the wire profile design eliminates plugging
- Easy to install through manways as a single unit or as a segmented basket
- Available in 304, 316 or 321 stainless steel and other exotic materials
