

5-Star™ & 160A Anti-Slip Floor Grating

APPLICATIONS

- External walkways, pavements & ramps
- Hospitals and healthcare facilities
- Hotels, offices, public buildings, schools, stadiums, swimming pools and sporting facilities
- Commercial kitchens
- Supermarkets and shopping centers
- Stairs, trench/pit covers, entry mats and tree grating

5-Star Grating

160A Grating

BENEFITS

- The Johnson Screens® Vee-Wire® technology provides enhanced slip resistance across a range of indoor and outdoor environments, helping keep users in both public and commercial spaces safe.
- Adds a modern, aesthetically-pleasing visual element to any ground level surface.
- Easier to maintain than alternative solutions, longer-lasting and non-deteriorating compared to sand blast finish.
- Tested to ASTM-E and AS 4586:2013 standards.

FEATURES

- Combines the proprietary Vee-Wire technology of Johnson Screens Inc. with integrated nodules to enhance anti-slip properties beyond traditional sandblasted or sheet metal alternative grating solutions.
- Customizable to meet your exact application requirements.
- Also available in passivated and powdercoated finishes.

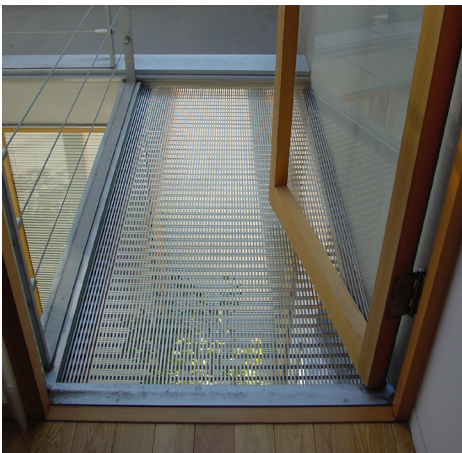

ENHANCE SAFETY AND AESTHETICS WITH JOHNSON ARCHITECTURAL ELEMENTS® GRATING SOLUTIONS

From the first flicker of an idea for a stunning space through the details of planning and documentation, Johnson Architectural Elements is a trusted brand for bringing your vision to life. We are proud to officially introduce two new offerings for the US market; **5-Star™** and **160A Anti-Slip Grating**.

While the 5-Star Grating offers a higher degree of slip resistance than its 160A counterpart, both solutions are suitable for use in a wide array of interior and exterior applications both public and commercial. Integrated nodules and a natural stainless steel finish ensure both solutions will enhance the anti-slip capabilities of any project while also lending a modern and visually pleasing aesthetic to the space.

Evolved from the legacy of Johnson Screens, the Johnson Architectural Elements brand reflects our vast experience in stainless steel welding and shaping that you won't find anywhere else. An exclusive architectural manufacturing team, plus fabricators and welders are devoted to delivering the highest quality materials.
